5 LONG-TERM RENEWAL CONTRACT BETWEEN THE UNITED STATES
6 AND
7 PLACER COUNTY WATER AGENCY
8 PROVIDING FOR PROJECT WATER SERVICE
9 FROM AMERICAN RIVER DIVISION

10 THIS CONTRACT, made this ____ day of _____, 200_, in
11 pursuance generally of the Act of June 17, 1902 (32 Stat. 388), and acts amendatory or
12 supplementary thereto, including, but not limited to, the Acts of August 26, 1937 (50 Stat. 844),
13 as amended and supplemented, August 4, 1939 (53 Stat. 1187), as amended and supplemented,
14 July 2, 1956 (70 Stat. 483), June 21, 1963 (77 Stat. 68), October 12, 1982 (96 Stat. 1263),
15 October 27, 1986 (100 Stat. 3050), as amended, and Title XXXIV of the Act of October 30, 1992
16 (106 Stat. 4706), all collectively hereinafter referred to as Federal Reclamation law, between
17 THE UNITED STATES OF AMERICA, hereinafter referred to as the United States, and
18 _____, hereinafter referred to as the Contractor, a public agency of
19 the State of California, duly organized, existing, and acting pursuant to the laws thereof, with its
20 principal place of business in California;

21 WITNESSETH, That:

22 EXPLANATORY RECITALS

23 [1st] WHEREAS, the United States has constructed and is operating the Central Valley
24 Project, California, for diversion, storage, carriage, distribution and beneficial use, for flood
25 control, irrigation, municipal, domestic, industrial, fish and wildlife mitigation, protection and
26 restoration, generation and distribution of electric energy, salinity control, navigation and other
27 beneficial uses, of waters of the Sacramento River, the American River, the Trinity River, and
28 the San Joaquin River and their tributaries; and

1 [2nd] WHEREAS, the United States constructed Folsom Dam and Reservoir,
2 hereinafter collectively referred to as the American River facilities, which will be used in part for
3 the furnishing of water to the Contractor pursuant to the terms of this Contract; and

4 [2.1] WHEREAS, the Auburn Dam and Reservoir proposed to be constructed by the
5 United States as a Unit of the Central Valley Project has to date, not been constructed; and

6 [3rd] WHEREAS, the rights to Project Water were acquired by the United States
7 pursuant to California law for operation of the Project; and

8 [4th] WHEREAS, the Contractor and the United States entered into Contract
9 No. 14-06-200-5082A, dated September 18, 1970, as amended July 8, 1992, which established
10 terms for the delivery to the Contractor of Central Valley Project Water from the Auburn
11 Reservoir or other mutually agreeable locations; and

12 ~~[4.1] WHEREAS, Contract No. 14-06-200-5082A, as amended,~~ also recognized d the
13 Contractor's right to certain flows of the American River, of up to 120,000 acre-feet authorized
14 by permits issued by the California State Water Rights Board which is now called the State
15 Water Resources Control Board (SWRCB); and

16 [4.21] WHEREAS, Contract No. 14-06-200-5082A, as amended, was superseded by
17 Amendatory Contract No. 14-06-200-5082A on February 26, 2002, to, among other things,
18 redesignate points of diversion and eliminate the minimum payment provisions currently
19 included in the contract, and reduce the annual amount of Project Water to be made available
20 from 117,000 acre-feet to 35,000 acre-feet; and

21 [4.32] Amendatory Contract No. 14-06-200-5082 was further amended on August 27,
22 2002 to provide for a potential point of diversion on the Sacramento River, and to provide for a
23 potential increase in the annual quantity provided under this contract to an amount in excess of
24 35,000 acre-feet;

25 [4.43] Amendatory Contract No. 14-06-200-5082A, ~~as amended on~~ dated February 26,

2002, ~~and~~ as amended on August 27, 2002, is hereinafter referred to as the Existing Contract;

and

[5th] Omitted; and

[6th] WHEREAS, Section 3404(c) of the CVPIA provides for long-term renewal of interim and existing long-term Central Valley Project Water service contracts following completion of appropriate environmental documentation, including a programmatic environmental impact statement (PEIS) pursuant to the National Environmental Policy Act analyzing the direct and indirect impacts and benefits of implementing the CVPIA and the potential renewal of all existing contracts for Project Water; and

[7th] WHEREAS, the United States has completed the PEIS and all other appropriate environmental review necessary to provide for long-term renewal of the Existing Contract; and

[8th] WHEREAS, the Contractor has requested the long-term renewal of the Existing Contract, pursuant to the terms of the Existing Contract, Federal Reclamation law, and the laws of the State of California, for water service from the Central Valley Project; and

[9th] WHEREAS, the United States has determined that the Contractor has fulfilled all of its obligations under the Existing Contract; and

[10th] WHEREAS, the Contractor has demonstrated to the satisfaction of the Contracting Officer that the Contractor has demonstrated projected future demand for water use such that the Contractor has the capability and expects to utilize fully for reasonable and beneficial use the quantity of Project Water to be made available to it pursuant to this Contract; and

[11th] WHEREAS, water obtained from the Central Valley Project has been relied upon by urban and agricultural areas within California for more than fifty (50) years, and is considered by the Contractor as an essential portion of its water supply; and

[12th] WHEREAS, the economies of regions within the Central Valley Project,

1 including the Contractor's, depend upon the continued availability of water, including water
2 service from the Central Valley Project; and

3 [13th] WHEREAS, the Secretary intends through coordination, cooperation, and
4 partnerships to pursue measures to improve water supply, water quality, and reliability of the
5 Project for all Project purposes; and

6 [14th] WHEREAS, the mutual goals of the United States and the Contractor include: to
7 provide for reliable Central Valley Project Water supplies; to control costs of those supplies; to
8 achieve repayment of the Central Valley Project as required by law; to guard reasonably against
9 Central Valley Project Water shortages; to achieve a reasonable balance among competing
10 demands for use of Central Valley Project Water; and to comply with all applicable
11 environmental statutes, all consistent with the legal obligations of the United States relative to
12 the Central Valley Project; and

13 [15th] WHEREAS, the parties intend by this Contract to develop a more cooperative
14 relationship in order to achieve their mutual goals; and

15 [15.1] WHEREAS, the Contractor is a signatory to the Water Forum Agreement, which
16 has the co-equal objectives to (1) provide a reliable and safe water supply for the Sacramento
17 region's economic health and planned development through the year 2030, and (2) preserve the
18 fishery, wildlife, recreational and aesthetic values of the lower American River; and

19 [15.2] WHEREAS, the Contracting Officer is in support of the co-equal objectives of the
20 Water Forum Agreement and intends to work cooperatively with the Contractor to investigate
21 actions that they could take to implement the objectives of the Water Forum Agreement, which,
22 if agreed to, would be the subject of a separate agreement between them; and

23 [16th] WHEREAS, the contract between the United States and the Contractor dated
24 February 20, 1963 relating to the operation of the Contractor's Middle Fork American River
25 Project Reservoirs is still in full force and effect and is not affected by the terms and conditions

of this contract; and

[17th] WHEREAS, the United States and the Contractor are willing to enter into this long-term renewal contract pursuant to Federal Reclamation law on the terms and conditions set forth below;

NOW, THEREFORE, in consideration of the mutual and dependent covenants herein contained, it is hereby mutually agreed by the parties hereto as follows:

DEFINITIONS

1. When used herein unless otherwise distinctly expressed, or manifestly incompatible with the intent of the parties as expressed in this Contract, the term:

(a) "Calendar Year" shall mean the period January 1 through December 31, both dates inclusive;

(b) "Charges" shall mean the payments required by Federal Reclamation law in addition to the Rates and Tiered Pricing Components specified in this Contract as determined annually by the Contracting Officer pursuant to this Contract;

(c) "Condition of Shortage" shall mean a condition respecting the Project during any Year such that the Contracting Officer is unable to deliver sufficient water to meet the Contract Total;

(d) "Contracting Officer" shall mean the Secretary of the Interior's duly authorized representative acting pursuant to this Contract or applicable Reclamation law or regulation;

(e) "Contract Total" shall mean the maximum amount of water to which the Contractor is entitled under subdivision (a) of Article 3 of this Contract;

(f) "Contractor's Service Area" shall mean the area to which the Contractor is permitted to provide Project Water under this Contract as described in Exhibit "A" attached hereto, which may be modified from time to time in accordance with Article 35 of this Contract

1 without amendment of this Contract;

2 (g) "CVPIA" shall mean the Central Valley Project Improvement Act, Title
3 XXXIV of the Act of October 30, 1992 (106 Stat. 4706);

4 (g.1) "Diversion Water" shall mean American River water to which the
5 Contractor has acquired rights ~~thereto~~ under Permit Nos. 13855, 13856, 13857, and 13858 issued
6 by the California State Water Rights Board, now referred to as the State Water Resources
7 Control Board;

8 (h) "Eligible Lands" shall mean all lands to which Irrigation Water may be
9 delivered in accordance with Section 204 of the Reclamation Reform Act of October 12, 1982
10 (96 Stat. 1263), as amended, hereinafter referred to as RRA;

11 (i) "Excess Lands" shall mean all lands in excess of the limitations contained
12 in Section 204 of the RRA, other than those lands exempt from acreage limitation under Federal
13 Reclamation law;

14 (j) "Full Cost Rate" shall mean an annual rate, as determined by the
15 Contracting Officer that shall amortizes the expenditures for construction properly allocable to
16 the Project Irrigation or M&I functions, as appropriate, of facilities in service including all
17 operation and maintenance deficits funded, less payments, over such periods as may be required
18 under Federal Reclamation law, or applicable contract provisions. Interest will accrue on both
19 the construction expenditures and funded O&M deficits from October 12, 1982, on costs
20 outstanding at that date, or from the date incurred in the case of costs arising subsequent to
21 October 12, 1982, and shall be calculated in accordance with subsections 202(3)(B) and (3)(C) of
22 the RRA. The full-cost rate includes actual operation, maintenance, and replacement costs
23 consistent with Section 426.2 of the Rules and Regulations for the RRA;

24 (k) "Ineligible Lands" shall mean all lands to which Irrigation Water may not
25 be delivered in accordance with Section 204 of the RRA;

1 (l) “Irrigation Full Cost Water Rate” shall mean the Full Cost Rate applicable
2 to the delivery of Irrigation Water;

3 (m) “Irrigation Water” shall mean water made available from the Project that
4 is used primarily in the production of agricultural crops or livestock, including domestic use
5 incidental thereto, and watering of livestock;

6 (n) “Landholder” shall mean a party that directly or indirectly owns or leases
7 nonexempt land, as provided in 43 CFR 426.2;

8 (o) “Municipal and Industrial (M&I) Water” shall mean Project Water, other
9 than Irrigation Water, made available to the Contractor. M&I Water shall include water used for
10 human use and purposes such as the watering of landscaping or pasture for animals (e.g., horses)
11 which are kept for personal enjoyment or water delivered to land holdings operated in units of
12 less than five (5) acres unless the Contractor establishes to the satisfaction of the Contracting
13 Officer that the use of water delivered to any such landholding is a use described in subdivision
14 (m) of this Article;

15 (p) “M&I Full Cost Water Rate” shall mean the Full Cost Rate applicable to
16 the delivery of M&I Water;

17 (q) “Operation and Maintenance” or “O&M” shall mean normal and
18 reasonable care, control, operation, repair, replacement (other than Capital replacement), and
19 maintenance of Project facilities;

20 (r) Omitted;

21 (s) “Project” shall mean the Central Valley Project owned by the United
22 States and managed by the Department of the Interior, Bureau of Reclamation;

23 (t) “Project Contractors” shall mean all parties who have water service
24 contracts for Project Water from the Project with the United States pursuant to Federal
25 Reclamation law;

1 (u) “Project Water” shall mean all water that is developed, diverted, stored, or
2 delivered by the Secretary in accordance with the statutes authorizing the Project and in
3 accordance with the terms and conditions of water rights acquired pursuant to California law;

4 (v) “Rates” shall mean the payments determined annually by the Contracting
5 Officer in accordance with the then current applicable water ratesetting policies for the Project,
6 as described in subdivision (a) of Article 7 of this Contract;

7 (w) “Recent Historic Average” shall mean the most recent five (5)-year
8 average of the final forecast of Water Made Available to the Contractor pursuant to this Contract
9 or its preceding contract(s);

10 (x) “Secretary” shall mean the Secretary of the Interior, a duly appointed
11 successor, or an authorized representative acting pursuant to any authority of the Secretary and
12 through any agency of the Department of the Interior;

13 (y) “Tiered Pricing Component” shall be the incremental amount to be paid
14 for each acre-foot of Water Delivered as described in subdivision (j) of Article 7 of this Contract;

15 (z) “Water Delivered” or “Delivered Water” shall mean Project Water
16 diverted for use by the Contractor at the point(s) of delivery approved by the Contracting
17 Officer;

18 (aa) “Water Made Available” shall mean the estimated amount of Project
19 Water that can be delivered to the Contractor for the upcoming Year as declared by the
20 Contracting Officer, pursuant to subdivision (a) of Article 4 of this Contract;

21 (bb) “Water Scheduled” shall mean Project Water made available to the
22 Contractor for which times and quantities for delivery have been established by the Contractor
23 and Contracting Officer, pursuant to subdivision (b) of Article 4 of this Contract; and

24 (cc) "Year" shall mean the period from and including March 1 of each
25 Calendar Year through the last day of February of the following Calendar Year.

TERM OF CONTRACT

2. (a) This Contract shall be effective March 1, 200_, through February 28 (29), 20___. In the event the Contractor wishes to renew the Contract beyond February 28 (29), 20___, the Contractor shall submit a request for renewal in writing to the Contracting Officer no later than two (2) years prior to the date this Contract expires. The renewal of this Contract insofar as it pertains to the furnishing of Irrigation Water to the Contractor shall be governed by subdivision (b) of this Article, and the renewal of this Contract insofar as it pertains to the furnishing of M&I Water to the Contractor shall be governed by subdivision (c) of this Article.

(b) (1) Under terms and conditions of a renewal contract that are mutually agreeable to the parties hereto, and upon a determination by the Contracting Officer that at the time of contract renewal the conditions set forth in subdivision (b)(2) of this Article are met, and subject to Federal and State law, this Contract, insofar as it pertains to the furnishing of Irrigation Water to the Contractor, shall be renewed for a period of twenty-five (25) years.

(2) The conditions which must be met for this Contract to be renewed are: (i) the Contractor has prepared a water conservation plan that has been determined by the Contracting Officer in accordance with Article 26 of this Contract to meet the conservation and efficiency criteria for evaluating such plans established under Federal law; (ii) the Contractor is implementing an effective water conservation and efficiency program based on the Contractor's water conservation plan as required by Article 26 of this Contract; (iii) the Contractor is maintaining all water measuring devices and implementing all water measurement methods as approved by the Contracting Officer pursuant to Article 6 of this Contract; (iv) the Contractor has reasonably and beneficially used the Project Water supplies made available to it and, based on projected demands, is reasonably anticipated and expects fully to utilize for reasonable and beneficial use the

1 quantity of Project Water to be made available to it pursuant to such renewal; (v) the
2 Contractor is complying with all terms and conditions of this Contract; and (vi) the
3 Contractor has the physical and legal ability to deliver Project Water.

4 (3) The terms and conditions of the renewal contract described in subdivision
5 (b)(1) of this Article and any subsequent renewal contracts shall be developed consistent
6 with the parties' respective legal rights and obligations, and in consideration of all
7 relevant facts and circumstances, as those circumstances exist at the time of renewal,
8 including, without limitation, the Contractor's need for continued delivery of Project
9 Water; environmental conditions affected by implementation of the Contract to be
10 renewed, and specifically changes in those conditions that occurred during the life of the
11 Contract to be renewed; the Secretary's progress toward achieving the purposes of the
12 CVPIA as set out in Section 3402 and in implementing the specific provisions of the
13 CVPIA; and current and anticipated economic circumstances of the region served by the
14 Contractor.

15 (c) This Contract, insofar as it pertains to the furnishing of M&I Water to the
16 Contractor, shall be renewed for a period of up to 40 years⁺ and thereafter shall be renewed for
17 successive periods of up to ~~forty (40)~~ years each, which periods shall be consistent with the then-
18 existing Reclamation-wide policy, under terms and conditions mutually agreeable to the parties
19 and consistent with federal and state law. The Contractor shall be afforded the opportunity to
20 comment to the Contracting Officer on the proposed adoption and application of any revised
21 Reclamation-wide policy applicable to the delivery of Project M&I Water that would limit the
22 term of any subsequent renewal contract with the Contractor for the furnishing of M&I Water to
23 less than 40 years.

⁺~~-To be completed consistent with the term agreed upon with other CVP M&I Long-Term Renewal Contracts.~~

1 (d) The Contracting Officer shall make a determination 10 years after the date
2 of execution of this Contract, and every 5 years thereafter during the term of this Contract, of
3 whether a conversion to a contract under said subsection 9(d) can be accomplished pursuant to
4 the Act of July 2, 1956 (Public Law 643). Notwithstanding any provision of this Contract, the
5 Contractor reserves and shall have all rights and benefits under Public Law 643. The
6 Contracting Officer anticipates that during the term of this contract, all authorized Project
7 construction expected to occur will have occurred, and on that basis the Contracting Officer
8 agrees upon such completion to allocate all costs that are properly assignable to the Contractor,
9 and agrees further that, at any time after such allocation is made, and subject to satisfaction of
10 the conditions set out in this subdivision of this Article, this Contract shall, at the request of the
11 Contractor, be converted to a contract under subsection (c)(1) of Section 9, of the Reclamation
12 Project Act of 1939, subject to applicable Federal law and under stated terms and conditions
13 mutually agreeable to the Contractor and the Contracting Officer. A condition for such
14 conversion to occur shall be a determination by the Contracting Officer that, account being taken
15 of the amount credited to return by the Contractor as provided for under Federal Reclamation
16 law, the remaining amount of construction costs assignable for ultimate return by the Contractor
17 can probably be repaid to the United States within the term of a contract under said subsection
18 9(c)(1). If the remaining amount of costs that are properly assignable to the Contractor cannot be
19 determined during the term of this Contract, the Contracting Officer shall notify the Contractor,
20 and provide the reason(s) why such a determination could not be made. Further, the Contracting
21 Officer shall make such a determination as soon thereafter as possible so as to permit, upon
22 request of the Contractor and satisfaction of the conditions set out above, conversion to a
23 contract under said subsection 9(c)(1). In the event such determination of costs has not been
24 made at a time which allows conversion of this Contract during the term of this Contract or the
25 Contractor has not requested conversion of this Contract within such term, the parties shall

1 incorporate in any subsequent renewal contract as described in subdivision (c) of this Article a
2 provision that carries forth in substantially identical terms the provisions of this subdivision (d).

3 WATER TO BE MADE AVAILABLE AND DELIVERED TO THE CONTRACTOR

4 3. (a) During each Year, consistent with all applicable State water rights,
5 permits, and licenses, Federal law, and subject to the provisions set forth in Articles 11 and 12 of
6 this Contract, the Contracting Officer shall make available for delivery to the Contractor 35,000
7 acre-feet of ~~Project w~~Water for irrigation and M&I purposes. If agreed to by the Contracting
8 Officer and the Contractor, the 35,000 acre-feet may be increased in any renewal of this Contract
9 (i) if and when a point of diversion for Project Water is established on the Sacramento River as
10 described in Article 5(a); and, (ii) if and when the proposed Auburn Dam is fully completed, the
11 United States obtains the necessary water rights for the Auburn Project, and such action
12 continues to be consistent with Federal and State law. The Contracting Officer agrees to
13 recognize the relevant historic relationship with the Contractor relative to water supplies
14 contemplated from Auburn Reservoir in determining such increased amount. The quantity of
15 Water Delivered to the Contractor in accordance with this subdivision in any Year shall be
16 scheduled and paid for pursuant to the provisions of Articles 4 and 7 of this Contract.

17 (1) The Contracting Officer recognizes that the Contractor has a right
18 to Diversion Water from the American River in the amount of 120,000 acre-feet in any
19 Year said water is available. Said Diversion Water is in addition the Project Water made
20 available pursuant to this contract. The quantities of Diversion Water to which the
21 Contractor is entitled and which are not taken or otherwise disposed of by the Contractor
22 during that Year shall become the property of the United States.

23 (2) The quantity of Diversion Water specified in Article 3(a)(1) above,
24 is contingent upon the right of the Contractor to continue to take said quantity of water
25 annually pursuant to California law. In the event that under such law the Contractor's

1 right to take Diversion Water is less than the amount specified in Article 3(a)(1) above,
2 the amount of Diversion Water which the Contracting Officer will recognize under this
3 amendatory contract shall be reduced accordingly.

4 (b) Because the capacity of the Central Valley Project to deliver Project Water
5 has been constrained in recent years and may be constrained in the future due to many factors
6 including hydrologic conditions and implementation of Federal and State laws, the likelihood of
7 the Contractor actually receiving the amount of Water set out in subdivision (a) of this Article in
8 any given Year is uncertain. The Contracting Officer's most recent modeling referenced in the
9 PEIS projected that the Contract Total set forth in this Contract will not be available to the
10 Contractor in many years. During the most recent five (5) years, the Recent Historic Average of
11 water made available to the Contractor was 31,000 acre-feet. Nothing in subdivision (b) of this
12 Article shall affect the rights and obligations of the parties under any provision of this Contract.

13 (c) The Contractor shall utilize the Project Water in accordance with all
14 applicable legal requirements.

15 (d) The Contractor shall make reasonable and beneficial use of all Project
16 Water or other water furnished pursuant to this Contract. Groundwater recharge programs
17 (direct, indirect, or in lieu), groundwater banking programs, surface water storage programs, and
18 other similar programs utilizing Project Water or other water furnished pursuant to this Contract
19 conducted within the Contractor's Service Area which are consistent with applicable State law
20 and result in use consistent with Federal Reclamation law will be allowed; Provided, That any
21 direct recharge program(s) is (are) described in the Contractor's Water Conservation Plan
22 submitted pursuant to Article 26 of this Contract; Provided, further, That such Water
23 Conservation Plan demonstrates sufficient lawful uses exist in the Contractor's Service Area so
24 that using a long-term average, the quantity of Delivered Water is demonstrated to be reasonable
25 for such uses and in compliance with Federal Reclamation Law. Groundwater recharge

1 programs, ground-water banking programs, surface water storage programs, and other similar
2 programs utilizing Project Water or other water furnished pursuant to this Contract conducted
3 outside the Contractor's Service Area may be permitted upon written approval of the Contracting
4 Officer, which approval will be based upon environmental documentation, Project Water rights,
5 and Project operational concerns. The Contracting Officer will address such concerns in
6 regulations, policies, or guidelines.

7 (e) The Contractor shall comply with requirements applicable to the
8 Contractor in biological opinion(s) prepared as a result of a consultation regarding the execution
9 of this Contract undertaken pursuant to Section 7 of the Endangered Species Act of 1973, as
10 amended, that are within the Contractor's legal authority to implement. The Existing Contract,
11 which evidences in excess of ____ years of diversions for irrigation and/or municipal and
12 industrial purposes of the quantities of water provided in subdivision (a) of Article 3 of this
13 Contract, will be considered in developing an appropriate baseline for the Biological Assessment
14 prepared pursuant to the Endangered Species Act, and any other needed environmental review.

15 Nothing herein shall be construed to prevent the Contractor from challenging or seeking judicial
16 relief in a court of competent jurisdiction with respect to any biological opinion or other
17 environmental documentation referred to in this Article.

18 (f) Following the declaration of Water Made Available under Article 4 of this
19 Contract, the Contracting Officer will make a determination whether Project Water, or other
20 water available to the Project, can be made available to the Contractor in addition to the Contract
21 Total under Article 3 of this Contract during the Year without adversely impacting other Project
22 Contractors. At the request of the Contractor, the Contracting Officer will consult with the
23 Contractor prior to making such a determination. If the Contracting Officer determines that
24 Project Water, or other water available to the Project, can be made available to the Contractor,

1 the Contracting Officer will announce the availability of such water and shall so notify the
2 Contractor as soon as practical. The Contracting Officer will thereafter meet with the Contractor
3 and other Project Contractors capable of taking such water to determine the most equitable and
4 efficient allocation of such water. If the Contractor requests the delivery of any quantity of such
5 water, the Contracting Officer shall make such water available to the Contractor in accordance
6 with applicable statutes, regulations, guidelines, and policies. **Subject to existing long-term**
7 **contractual commitments, water rights and operational constraints, long-term Project Contractors**
8 **shall have a first right to acquire such water, including Project Water made available pursuant to**
9 **Section 215 of the RRA.**

10 (g) The Contractor may request permission to reschedule for use during the
11 subsequent Year some or all of the Water Made Available to the Contractor during the current
12 Year referred to as “carryover.” The Contractor may request permission to use during the
13 current Year a quantity of Project Water which may be made available by the United States to
14 the Contractor during the subsequent Year referred to as “preuse.” The Contracting Officer’s
15 written approval may permit such uses in accordance with applicable statutes, regulations,
16 guidelines, and policies.

17 (h) The Contractor’s right pursuant to Federal Reclamation law and applicable
18 State law to the reasonable and beneficial use of Water Delivered pursuant to this Contract
19 during the term thereof and any subsequent renewal contracts, as described in Article 2 of this
20 Contract, during the terms thereof shall not be disturbed so long as the Contractor shall fulfill all
21 of its obligations under this Contract and any renewals thereof. Nothing in the preceding
22 sentence shall affect the Contracting Officer’s ability to impose shortages under Article 11 or
23 subdivision (b) of Article 12 of this Contract or applicable provisions of any subsequent renewal

1 contracts.

2 (i) Project Water furnished to the Contractor pursuant to this Contract may be
3 delivered for purposes other than those described in subdivisions (m) and (o) of Article 1 of this
4 Contract upon written approval by the Contracting Officer in accordance with the terms and
5 conditions of such approval.

6 (j) The Contracting Officer shall make reasonable efforts to protect the water
7 rights necessary for the Project and to provide the water available under this Contract. The
8 Contracting Officer shall not object to participation by the Contractor, in the capacity and to the
9 extent permitted by law, in administrative proceedings related to the Project Water rights;
10 Provided, however, That the Contracting Officer retains the right to object to the substance of the
11 Contractor's position in such a proceeding; Provided further, that in such proceedings the
12 Contracting Officer shall recognize the Contractor has a legal right under the terms of this
13 Contract to use Project Water.

14 TIME FOR DELIVERY OF WATER

15 (4) (a) On or about February 20 of each Calendar Year, the Contracting Officer
16 shall announce the Contracting Officer's expected declaration of the Water Made Available.
17 Such declaration of Project operations will be expressed in terms of both Water Made Available
18 and the Recent Historic Average and will be updated monthly, and more frequently if necessary,
19 based on then-current operational and hydrologic conditions and a new declaration with changes,
20 if any, to the Water Made Available will be made. The Contracting Officer shall provide
21 forecasts of Project operations and the basis of the estimate, with relevant supporting
22 information, upon the written request of the Contractor. Concurrently with the declaration of the
23 Water Made Available, the Contracting Officer shall provide the Contractor with the updated
24 Recent Historic Average.

25 (b) On or before each March 1 and at such other times as necessary, the

Contractor shall submit to the Contracting Officer a written schedule, satisfactory to the Contracting Officer, showing the monthly quantities of Project Water to be delivered by the United States to the Contractor pursuant to this Contract for the Year commencing on such March 1. The Contracting Officer shall use all reasonable means to deliver Project Water according to the approved schedule for the Year commencing on such March 1.

(c) The Contractor shall not schedule Project Water in excess of the quantity of Project Water the Contractor intends to put to reasonable and beneficial use within the Contractor's Service Area or to sell, transfer, or exchange pursuant to Article 9 of this Contract during any Year.

(d) Subject to the conditions set forth in subdivision (a) of Article 3 of this Contract, the United States shall deliver Project Water to the Contractor in accordance with the initial schedule submitted by the Contractor pursuant to subdivision (b) of this Article, or any written revision(s), satisfactory to the Contracting Officer, thereto submitted within a reasonable time prior to the date(s) on which the requested change(s) is/are to be implemented.

POINT OF DIVERSION AND RESPONSIBILITY FOR DISTRIBUTION OF WATER

5. (a) Project Water scheduled pursuant to subdivision (b) of Article 4 of this Contract shall be delivered to the Contractor at Folsom Dam and any additional point or points of delivery either on Project facilities or another location or locations mutually agreed to in writing by the Contracting Officer and the Contractor, including a potential point of delivery on the Sacramento River north of the American River. The parties acknowledge that the potential Sacramento River point of delivery may be at a point that, as of the date of this Contract, is not included as an authorized point of delivery under the water right permits of the Project. Project Water will not be delivered to this point of delivery unless and until such point is added to the water right permits of the Project. Upon request of the Contractor, the Contracting Officer shall petition the California State Water Resources Control Board to include the necessary point of

1 delivery to the water rights for the Project, and the Contractor shall cooperate with and assist the
2 Contracting Officer in prosecuting such petition in a timely manner. The Contracting Officer
3 shall bear neither responsibility nor liability for existing and/or future constructed non-federal
4 diversion or delivery facilities or the use thereof.

5 (1) The parties hereby acknowledge execution of the Stipulated
6 Agreement dated September 8, 1998 recognizing the agreement by the United States,
7 Bureau of Reclamation, subject to certain conditions, to dismiss protests to the
8 Contractor's petition to expand the place of use under the Contractor's water right
9 permits.

10 (b) On or before each March 1 and at such other times as necessary, the
11 Contractor shall submit to the Contracting Officer a written schedule, satisfactory to the
12 Contracting Officer, showing the monthly quantities of Project Water to be delivered by the
13 United States to the Contractor pursuant to this Contract for the Year commencing on such
14 March 1. The Contracting Officer shall use all reasonable means to deliver Project Water
15 according to the approved schedule for the Year commencing on such March 1.

16 (c) The Contractor shall deliver Irrigation Water in accordance with any
17 applicable land classification provisions of Federal Reclamation law and the associated
18 regulations. The Contractor shall not deliver Project Water to land outside the Contractor's
19 Service Area unless approved in advance by the Contracting Officer.

20 (d) All Water Delivered to the Contractor pursuant to this Contract shall be
21 measured and recorded with equipment furnished, installed, operated, and maintained by the
22 United States or other appropriate entity as designated by the Contracting Officer at the point or
23 points of delivery established pursuant to subdivision (a) of this Article. Upon the request of
24 either party to this Contract, the Contracting Officer shall investigate the accuracy of such
25 measurements and shall take any necessary steps to adjust any errors appearing therein. For any

1 period of time when accurate measurements have not been made, the Contracting Officer shall
2 consult with the Contractor prior to making a final determination of the quantity delivered for
3 that period of time.

4 (e) The Contracting Officer shall not be responsible for the control, carriage,
5 handling, use, disposal, or distribution of Water Delivered to the Contractor pursuant to this
6 Contract beyond the delivery points specified in subdivision (a) of this Article. The Contractor
7 shall indemnify the United States, its officers, employees, agents, and assigns on account of
8 damage or claim of damage of any nature whatsoever for which there is legal responsibility,
9 including property damage, personal injury, or death arising out of or connected with the control,
10 carriage, handling, use, disposal, or distribution of such Water Delivered beyond such delivery
11 points, except for any damage or claim arising out of: (i) acts or omissions of the Contracting
12 Officer or any of its officers, employees, agents, or assigns with the intent of creating the
13 situation resulting in any damage or claim; (ii) willful misconduct of the Contracting Officer or
14 any of its officers, employees, agents, or assigns; (iii) negligence of the Contracting Officer or
15 any of its officers, employees, agents, or assigns; or (iv) damage or claims resulting from a
16 malfunction of facilities owned and/or operated by the United States.

17 MEASUREMENT OF WATER WITHIN THE SERVICE AREA

18 6. (a) The Contractor shall ensure that, unless the Contractor establishes an
19 alternative measurement program satisfactory to the Contracting Officer, all surface water
20 delivered for irrigation purposes within the Contractor's Service Area is measured at each
21 agricultural turnout and such water delivered for M&I purposes is measured at each M&I service
22 connection. The water measuring devices or water measuring methods of comparable
23 effectiveness must be acceptable to the Contracting Officer. The Contractor shall be responsible
24 for installing, operating, and maintaining and repairing all such measuring devices and
25 implementing all such water measuring methods at no cost to the United States. The Contractor

1 shall use the information obtained from such water measuring devices or water measuring
2 methods to ensure its proper management of the water, to bill water users for water delivered by
3 the Contractor; and, if applicable, to record water delivered for M&I purposes by customer class
4 as defined in the Contractor's water conservation plan provided for in Article 26 of this Contract.
5 Nothing herein contained, however, shall preclude the Contractor from establishing and
6 collecting any charges, assessments, or other revenues authorized by California law. The
7 Contractor shall include a summary of all its annual surface water deliveries in the annual report
8 described in subdivision (c) of Article 26.

9 (b) To the extent the information has not otherwise been provided, upon
10 execution of this Contract, the Contractor shall provide to the Contracting Officer a written
11 report describing the measurement devices or water measuring methods being used or to be used
12 to implement subdivision (a) of this Article and identifying the agricultural turnouts and the M&I
13 service connections or alternative measurement programs approved by the Contracting Officer,
14 at which such measurement devices or water measuring methods are being used, and, if
15 applicable, identifying the locations at which such devices and/or methods are not yet being used
16 including a time schedule for implementation at such locations. The Contracting Officer shall
17 advise the Contractor in writing within sixty (60) days as to the adequacy of, and necessary
18 modifications, if any, of the measuring devices or water measuring methods identified in the
19 Contractor's report and if the Contracting Officer does not respond in such time, they shall be
20 deemed adequate. If the Contracting Officer notifies the Contractor that the measuring devices
21 or methods are inadequate, the parties shall within sixty (60) days following the Contracting
22 Officer's response, negotiate in good faith the earliest practicable date by which the Contractor
23 shall modify said measuring devices and/or measuring methods as required by the Contracting
24 Officer to ensure compliance with subdivision (a) of this Article.

25 (c) All new surface water delivery systems installed within the Contractor's

1 Service Area after the effective date of this Contract shall also comply with the measurement
2 provisions described in subdivision (a) of this Article.

3 (d) The Contractor shall inform the Contracting Officer and the State of
4 California in writing by April 30 of each Year of the monthly volume of surface water delivered
5 within the Contractor's Service Area during the previous Year.

6 (e) The Contractor shall inform the Contracting Officer on or before the
7 twentieth (20th) calendar day of each month of the quantity of Irrigation and M&I Water taken
8 during the preceding month.

9 RATES AND METHOD OF PAYMENT FOR WATER

10 7. (a) The Contractor shall pay the United States as provided in this Article for
11 all Delivered Water at Rates, Charges, and the Tiered Pricing Component established in
12 accordance with (i) the Secretary's ratesetting policy for Irrigation Water adopted in 1988 and
13 the Secretary's then-existing ratesetting policy for M&I Water. Such ratesetting policies shall be
14 amended, modified, or superseded only through a public notice and comment procedure; (ii)
15 applicable Federal Reclamation law and associated rules and regulations, or policies; and (iii)
16 other applicable provisions of this Contract. Payments shall be made by cash transaction, wire
17 transfer, or any other mechanism as may be agreed to in writing by the Contractor and the
18 Contracting Officer. The Rates, Charges, and Tiered Pricing Components applicable to the
19 Contractor upon execution of this Contract are set forth in Exhibit "B," as may be revised
20 annually.

21 (b) The Contracting Officer shall notify the Contractor of the Rates, Charges,
22 and Tiered Pricing Components as follows:

23 (1) Prior to July 1 of each Calendar Year, the Contracting Officer shall
24 provide the Contractor an estimate of the Charges for Project Water that will be applied
25 to the period October 1, of the current Calendar Year, through September 30, of the

1 following Calendar Year, and the basis for such estimate. The Contractor shall be
2 allowed not less than two (2) months to review and comment on such estimates. On or
3 before September 15 of each Calendar Year, the Contracting Officer shall notify the
4 Contractor in writing of the Charges to be in effect during the period October 1 of the
5 current Calendar Year, through September 30, of the following Calendar Year, and such
6 notification shall revise Exhibit "B."

7 (2) Prior to October 1 of each Calendar Year, the Contracting Officer
8 shall make available to the Contractor an estimate of the Rates and Tiered Pricing
9 Components for Project Water for the following Year and the computations and cost
10 allocations upon which those Rates are based. The Contractor shall be allowed not less
11 than two (2) months to review and comment on such computations and cost allocations.
12 By December 31 of each Calendar Year, the Contracting Officer shall provide the
13 Contractor with the final Rates and Tiered Pricing Components to be in effect for the
14 upcoming Year, and such notification shall revise Exhibit "B."

15 (c) At the time the Contractor submits the initial schedule for the delivery of
16 Project Water for each Year pursuant to subdivision (b) of Article 4 of this Contract, the
17 Contractor shall make an advance payment to the United States equal to the total amount payable
18 pursuant to the applicable Rate(s) set under subdivision (a) of this Article, for the Project Water
19 scheduled to be delivered pursuant to this Contract during the first two (2) calendar months of
20 the Year. Before the end of the first month and before the end of each calendar month thereafter,
21 the Contractor shall make an advance payment to the United States, at the Rate(s) set under
22 subdivision (a) of this Article, for the Water Scheduled to be delivered pursuant to this Contract
23 during the second month immediately following. Adjustments between advance payments for
24 Water Scheduled and payments at Rates due for Water Delivered shall be made before the end of
25 the following month; Provided, That any revised schedule submitted by the Contractor pursuant

1 to Article 4 of this Contract which increases the amount of Water Delivered pursuant to this
2 Contract during any month shall be accompanied with appropriate advance payment, at the Rates
3 then in effect, to assure that Project Water is not delivered to the Contractor in advance of such
4 payment. In any month in which the quantity of Water Delivered to the Contractor pursuant to
5 this Contract equals the quantity of Water Scheduled and paid for by the Contractor, no
6 additional Project Water shall be delivered to the Contractor unless and until an advance
7 payment at the Rates then in effect for such additional Project Water is made. Final adjustment
8 between the advance payments for the Water Scheduled and payments for the quantities of Water
9 Delivered during each Year pursuant to this Contract shall be made as soon as practicable but no
10 later than April 30th of the following Year, or sixty (60) days after the delivery of Project Water
11 carried over under subdivision (g) of Article 3 of this Contract if such water is not delivered by
12 the last day of February.

13 (d) The Contractor shall also make a payment in addition to the Rate(s) in
14 subdivision (c) of this Article to the United States for Water Delivered, at the Charges and the
15 appropriate Tiered Pricing Component then in effect, before the end of the month following the
16 month of delivery; Provided, That the Contractor may be granted an exception from the Tiered
17 Pricing Component pursuant to subdivision (j)(2) of this Article. The payments shall be
18 consistent with the quantities of Irrigation Water and M&I Water Delivered as shown in the
19 water delivery report for the subject month prepared by the Contracting Officer. The water
20 delivery report shall be deemed a bill for the payment of Charges and the applicable Tiered
21 Pricing Component for Water Delivered. Adjustment for overpayment or underpayment of
22 Charges shall be made through the adjustment of payments due to the United States for Charges
23 for the next month. Any amount to be paid for past due payment of Charges and the Tiered
24 Pricing Component shall be computed pursuant to Article 20 of this Contract.

25 (e) The Contractor shall pay for any Water Delivered under subdivision (d),

1 (f), or (g) of Article 3 of this Contract as determined by the Contracting Officer pursuant to
2 applicable statutes, associated regulations, any applicable provisions of guidelines or ratesetting
3 policies; Provided, That the Rate for Water Delivered under subdivision (d) of Article 3 of this
4 Contract shall be no more than the otherwise applicable Rate for Irrigation Water or M&I Water
5 under subdivision (a) of this Article.

6 (f) Payments to be made by the Contractor to the United States under this
7 Contract may be paid from any revenues available to the Contractor.

8 (g) All revenues received by the United States from the Contractor relating to
9 the delivery of Project Water or the delivery of non-Project water through Project facilities shall
10 be allocated and applied in accordance with Federal Reclamation law and the associated rules or
11 regulations, and the then current Project ratesetting policies for M&I Water or Irrigation Water.

12 (h) The Contracting Officer shall keep its accounts pertaining to the
13 administration of the financial terms and conditions of its long-term contracts, in accordance
14 with applicable Federal standards, so as to reflect the application of Project costs and revenues.
15 The Contracting Officer shall, each Year upon request of the Contractor, provide to the
16 Contractor a detailed accounting of all Project and Contractor expense allocations, the
17 disposition of all Project and Contractor revenues, and a summary of all water delivery
18 information. The Contracting Officer and the Contractor shall enter into good faith negotiations
19 to resolve any discrepancies or disputes relating to accountings, reports, or information.

20 (i) The parties acknowledge and agree that the efficient administration of this
21 Contract is their mutual goal. Recognizing that experience has demonstrated that mechanisms,
22 policies, and procedures used for establishing Rates, Charges, and Tiered Pricing Components,
23 and/or for making and allocating payments, other than those set forth in this Article may be in
24 the mutual best interest of the parties, it is expressly agreed that the parties may enter into
25 agreements to modify the mechanisms, policies, and procedures for any of those purposes while

1 this Contract is in effect without amending this Contract.

2 (j) (1) Beginning at such time as deliveries of Project Water in a Year
3 exceed eighty (80%) percent of the Contract Total, then before the end of the month
4 following the month of delivery the Contractor shall make an additional payment to the
5 United States equal to the applicable Tiered Pricing Component. The Tiered Pricing
6 Component for the amount of Water Delivered in excess of eighty (80%) percent of the
7 Contract Total, but less than or equal to ninety (90%) percent of the Contract Total, shall
8 equal the one-half of the difference between the Rate established under subdivision (a) of
9 this Article and the Irrigation Full Cost Water Rate or M&I Full Cost Water Rate,
10 whichever is applicable. The Tiered Pricing Component for the amount of Water
11 Delivered which exceeds ninety (90%) percent of the Contract Total shall equal the
12 difference between (i) the Rate established under subdivision (a) of this Article and (ii)
13 the Irrigation Full Cost Water Rate or M&I Full Cost Water Rate, whichever is
14 applicable.

15 (2) Subject to the Contracting Officer's written approval, the
16 Contractor may request and receive an exemption from such Tiered Pricing Components
17 for Project Water delivered to produce a crop which the Contracting Officer determines
18 will provide significant and quantifiable habitat values for waterfowl in fields where the
19 water is used and the crops are produced; Provided, That the exemption from the Tiered
20 Pricing Components for Irrigation Water shall apply only if such habitat values can be
21 assured consistent with the purposes of CVPIA through binding agreements executed
22 with or approved by the Contracting Officer prior to use of such water.

23 (3) For purposes of determining the applicability of the Tiered Pricing
24 Components pursuant to this Article, Water Delivered shall include Project Water that the
25 Contractor transfers to others but shall not include Project Water transferred and

1 delivered to the Contractor.

2 (k) For the term of this Contract, Rates under the respective ratesetting
3 policies will be established to recover only reimbursable O&M (including any deficits) and
4 capital costs of the Project, as those terms are used in the then-current Project ratesetting
5 policies, and interest, where appropriate, except in instances where a minimum Rate is applicable
6 in accordance with the relevant Project ratesetting policy. Changes of significance in practices
7 which implement the Contracting Officer's ratesetting policies will not be implemented until the
8 Contracting Officer has provided the Contractor an opportunity to discuss the nature, need, and
9 impact of the proposed change.

10 (l) Except as provided in subsections 3405(a)(1)(B) and 3405(f) of the
11 CVPIA, the Rates for Project Water transferred by the Contractor shall be the Contractor's Rates
12 adjusted upward or downward to reflect the changed costs, (if any), incurred by the Contracting
13 Officer in the delivery of the transferred Project Water to the transferee's point of delivery in
14 accordance with the then applicable CVP Ratesetting Policy. If the Contractor is receiving lower
15 Rates and Charges because of inability to pay and is transferring Project Water to another entity
16 whose Rates and Charges are not adjusted due to inability to pay, the Rates and Charges for
17 transferred Project Water shall be the Contractor's Rates and Charges unadjusted for inability to
18 pay.

19 (m) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the Contracting
20 Officer is authorized to adjust determinations of ability to pay every five (5) years.

21 (n) The Contractor asserts that it is not legally obligated to ~~repay~~ pay any
22 Central Valley Project deficits ~~or deficit related interest charges~~ claimed by the United States to
23 have accrued as of the date of this Contract or deficit related interest charges thereon. By
24 entering into this Contract, the Contractor does not waive any legal rights or remedies that it may
25 have with respect to such disputed issues. Notwithstanding the execution of this Contract, and

1 payments made hereunder, the Contractor may challenge in the appropriate administrative or
2 judicial forums: (1) the existence, the computation, or imposition of any deficit charges accruing
3 during the term of the Existing Contract; (2) interest accruing on any such deficits; (3) the
4 inclusion of any such deficit charges or interest in the Rates; (4) the application by the United
5 States of payments made by the Contractor under its Existing Contract; and (5) the application of
6 such payments in the Rates. The Contracting Officer agrees that the Contractor shall be entitled
7 to the benefit of any administrative or judicial ruling in favor of any other Central Valley Project
8 M&I contractor on any of these issues, and credits for payments heretofore made, provided that
9 the basis for such ruling is applicable to the Contractor.

10 NON-INTEREST BEARING OPERATION AND MAINTENANCE DEFICITS

11 8. The Contractor and the Contracting Officer concur that, as of the effective date of
12 this Contract, the Contractor has no non-interest bearing operation and maintenance deficits and
13 shall have no further liability therefor.

14 SALES, TRANSFERS, OR EXCHANGES OF WATER

15 9. (a) The right to receive Project Water provided for in this Contract may be
16 sold, transferred, or exchanged to others for reasonable and beneficial uses within the State of
17 California if such sale, transfer, or exchange is authorized by applicable Federal and State laws,
18 and applicable guidelines or regulations then in effect. No sale, transfer, or exchange of Project
19 Water under this Contract may take place without the prior written approval of the Contracting
20 Officer, except as provided for in subdivision (b) of this Article, and no such sales, transfers, or
21 exchanges shall be approved absent all appropriate environmental documentation, including but
22 not limited to documents prepared pursuant to the National Environmental Policy Act and the
23 Endangered Species Act. Such environmental documentation should include, as appropriate, an
24 analysis of groundwater impacts and economic and social effects, including environmental
25 justice, of the proposed water transfers on both the transferor and transferee.

1 (b) In order to facilitate efficient water management by means of water
2 transfers of the type historically carried out among Project Contractors located within the same
3 geographical area and to allow the Contractor to participate in an accelerated water transfer
4 program during the term of this Contract, the Contracting Officer shall prepare, as appropriate,
5 all necessary environmental documentation including, but not limited to, documents prepared
6 pursuant to the National Environmental Policy Act and the Endangered Species Act analyzing
7 annual transfers within such geographical areas and the Contracting Officer shall determine
8 whether such transfers comply with applicable law. Following the completion of the
9 environmental documentation, such transfers addressed in such documentation shall be
10 conducted with advance notice to the Contracting Officer, but shall not require prior written
11 approval by the Contracting Officer. Such environmental documentation and the Contracting
12 Officer's compliance determination shall be reviewed every five (5) years and updated, as
13 necessary, prior to the expiration of the then-existing five (5)-year period. All subsequent
14 environmental documentation shall include an alternative to evaluate not less than the quantity of
15 Project Water historically transferred within the same geographical area.

16 (c) For a water transfer to qualify under subdivision (b) of this Article, such
17 water transfer must: (i) be for irrigation purposes for lands irrigated within the previous three (3)
18 years, for M&I use, ground-water recharge, water banking, or fish and wildlife resources; not
19 lead to land conversion; and be delivered to established cropland, wildlife refuges, ground-water
20 basins or municipal and industrial use; (ii) occur within a single Year; (iii) occur between a
21 willing seller and a willing buyer; (iv) convey water through existing facilities with no new
22 construction or modifications to facilities and be between existing Project Contractors and/or the
23 Contractor and the United States, Department of the Interior; and (v) comply with all applicable
24 Federal, State, and local or tribal laws and requirements imposed for protection of the
25 environment and Indian Trust Assets, as defined under Federal law.

1 (d) Solely for the purpose of determining whether Section 3405(a)(1)(M) of
2 the CVPIA applies to the Contractor as a transferor or transferee of Project Water, the
3 Contracting Officer acknowledges that the Contractor is within a county, watershed or other area
4 of origin, as those terms are utilized under California law, of water that constitutes the natural
5 flow of the American River and its tributaries above the confluence of the American and
6 Sacramento Rivers.

7 APPLICATION OF PAYMENTS AND ADJUSTMENTS

8 10. (a) The amount of any overpayment by the Contractor of the Contractor's
9 O&M, Capital, and deficit (if any) obligations for the Year shall be applied first to any current
10 liabilities of the Contractor arising out of this Contract then due and payable. Overpayments of
11 more than One Thousand Dollars (\$1,000) shall be refunded at the Contractor's request. In lieu
12 of a refund, any amount of such overpayment at the option of the Contractor, may be credited
13 against amounts to become due to the United States by the Contractor. With respect to
14 overpayment, such refund or adjustment shall constitute the sole remedy of the Contractor or
15 anyone having or claiming to have the right to the use of any of the Project Water supply
16 provided for herein. All credits and refunds of overpayments shall be made within thirty (30)
17 days of the Contracting Officer obtaining direction as to how to credit or refund such
18 overpayment in response to the notice to the Contractor that it has finalized the accounts for the
19 Year in which the overpayment was made.

20 (b) All advances for miscellaneous costs incurred for work requested by the
21 Contractor pursuant to Article 25 of this Contract shall be adjusted to reflect the actual costs
22 when the work has been completed. If the advances exceed the actual costs incurred, the
23 difference will be refunded to the Contractor. If the actual costs exceed the Contractor's
24 advances, the Contractor will be billed for the additional costs pursuant to Article 25 of this
25 Contract.

TEMPORARY REDUCTIONS--RETURN FLOWS

11. (a) Subject to: (i) the authorized purposes and priorities of the Project and the requirements of Federal law; and (ii) the obligations of the United States under existing contracts, or renewals thereof, providing for water deliveries from the Project, the Contracting Officer shall make all reasonable efforts to optimize Project Water deliveries to the Contractor as provided in this Contract.

(b) The Contracting Officer may temporarily discontinue or reduce the quantity of Water Delivered to the Contractor as herein provided for the purposes of investigation, inspection, maintenance, repair, or replacement of any of the Project facilities or any part thereof necessary for the delivery of Project Water to the Contractor, but so far as feasible the Contracting Officer will give the Contractor due notice in advance of such temporary discontinuance or reduction, except in case of emergency, in which case no notice need be given; Provided, That the United States shall use its best efforts to avoid any discontinuance or reduction in such service. Upon resumption of service after such reduction or discontinuance, and if requested by the Contractor, the United States will, if possible, deliver the quantity of Project Water which would have been delivered hereunder in the absence of such discontinuance or reduction.

(c) The United States reserves the right to all seepage and return flow water derived from Water Delivered to the Contractor hereunder which escapes or is discharged beyond the Contractor's Service Area; Provided, That this shall not be construed as claiming for the United States any right as seepage or return flow being put to reasonable and beneficial use pursuant to this Contract within the Contractor's Service Area by the Contractor or those claiming by, through, or under the Contractor.

CONSTRAINTS ON THE AVAILABILITY OF WATER

12. (a) In its operation of the Project, the Contracting Officer will use all

1 reasonable means to guard against a Condition of Shortage in the quantity of water to be made
2 available to the Contractor pursuant to this long-term renewal Contract. In the event the
3 Contracting Officer determines that a Condition of Shortage appears probable, the Contracting
4 Officer will notify the Contractor of said determination as soon as practicable.

5 (b) If there is a Condition of Shortage because of errors in physical operations
6 of the Project, drought, other physical causes beyond the control of the Contracting Officer or
7 actions taken by the Contracting Officer to meet legal obligations then, except as provided in
8 subdivision (a) of Article 18 of this Contract, no liability shall accrue against the United States or
9 any of its officers, agents, or employees for any damage, direct or indirect, arising therefrom.

10 (c) In any Year in which there may occur a shortage for any of the reasons
11 specified in subdivision (b) above, the Contracting Officer shall apportion the available Project
12 Water supply among the Contractor and others entitled, under existing contracts and future
13 contracts (to the extent such future contracts are permitted under subsections (a) and (b) of
14 Section 3404 of the CVPIA) and renewals thereof, to receive Project Water consistent with the
15 contractual obligations of the United States.

16 (d) Project Water furnished under this Contract, will be allocated in
17 accordance with the then-existing Project M&I Water Shortage Policy. Such policy shall be
18 amended, modified, or superseded only through a public notice and comment procedure.

19 (e) By entering into this Contract, the Contractor does not waive any legal
20 rights or remedies it may have to file or participate in any administrative or judicial proceeding
21 contesting (i) the sufficiency of the manner in which any Project M&I Water Shortage Policy
22 adopted after the effective date of this Contract was promulgated; (ii) the substance of such a
23 policy; or (iii) the applicability of such a policy. By agreeing to the foregoing, the Contracting
24 Officer does not waive any legal defenses or remedies that it may then have to assert in such a
25 proceeding.

UNAVOIDABLE GROUNDWATER PERCOLATION

13. To the extent applicable, the Contractor shall not be deemed to have delivered Irrigation Water to Excess Lands or Ineligible Lands within the meaning of this Contract if such lands are irrigated with groundwater that reaches the underground strata as an unavoidable result of the delivery of Irrigation Water by the Contractor to Eligible Lands.

RULES AND REGULATIONS

14. The parties agree that the delivery of Irrigation Water or use of Federal facilities pursuant to this Contract is subject to Federal Reclamation law, including but not limited to, the Reclamation Reform Act of 1982 (43 U.S.C.390aa et seq.), as amended and supplemented, and the rules and regulations promulgated by the Secretary of the Interior under Federal Reclamation law.

WATER AND AIR POLLUTION CONTROL

15. The Contractor, in carrying out this Contract, shall comply with all applicable water and air pollution laws and regulations of the United States and the State of California, and shall obtain all required permits or licenses from the appropriate Federal, State, or local authorities.

QUALITY OF WATER

16. (a) Project facilities used to deliver Project Water to the Contractor pursuant to this Contract shall be operated and maintained to enable the United States to deliver Project Water to the Contractor in accordance with the water quality standards specified in subsection 2(b) of the Act of August 26, 1937 (50 Stat. 865), as added by Section 101 of the Act of October 27, 1986 (100 Stat. 3050) or other existing Federal laws. The United States is under no obligation to construct or furnish water treatment facilities to maintain or to improve the quality of Water Delivered to the Contractor pursuant to this Contract. The United States does not warrant the quality of Water Delivered to the Contractor pursuant to this Contract.

(b) The O&M of Project facilities shall be performed in such manner as is

1 practicable to maintain the quality of raw water made available through such facilities at the
2 highest level reasonably attainable as determined by the Contracting Officer. The Contractor
3 shall be responsible for compliance with all State and Federal water quality standards applicable
4 to surface and subsurface agricultural drainage discharges generated through the use of Federal
5 or Contractor facilities or Project Water provided by the Contractor within the Contractor's
6 Service Area.

7 WATER ACQUIRED BY THE CONTRACTOR
8 OTHER THAN FROM THE UNITED STATES

9 17. (a) Water or water rights now owned or hereafter acquired by the Contractor
10 other than from the United States and Irrigation Water furnished pursuant to the terms of this
11 Contract may be simultaneously transported through the same distribution facilities of the
12 Contractor subject to the following: (i) if the facilities utilized for commingling Irrigation Water
13 and non-Project water were constructed without funds made available pursuant to Federal
14 Reclamation law, the provisions of Federal Reclamation law will be applicable only to the
15 Landholders of lands which receive Irrigation Water; (ii) the eligibility of land to receive
16 Irrigation Water must be established through the certification requirements as specified in the
17 Acreage Limitation Rules and Regulations (43 CFR Part 426); (iii) the water requirements of
18 Eligible Lands within the Contractor's Service Area can be established and the quantity of
19 Irrigation Water to be utilized is less than or equal to the quantity necessary to irrigate such
20 Eligible Lands; and (iv) if the facilities utilized for commingling Irrigation Water and non-
21 Project water are/were constructed with funds made available pursuant to Federal Reclamation
22 law, the non-Project water will be subject to the acreage limitation provisions of Federal
23 Reclamation law, unless the Contractor pays to the United States the incremental fee described in
24 43 CFR 426.15. In determining the incremental fee, the Contracting Officer will calculate
25 annually the cost to the Federal Government, including interest of storing or delivering non-

1 Project water, which for purposes of this Contract shall be determined as follows: The quotient
2 shall be the unpaid distribution system costs divided by the total irrigable acreage within the
3 Contractor's Service Area. The incremental fee per acre is the mathematical result of such
4 quotient times the interest rate determined using Section 202 (3) of the Act of October 12, 1982
5 (96 Stat. 1263). Such incremental fee will be charged to each acre of excess or full cost land
6 within the Contractor's Service Area that receives non-Project water through Federally financed
7 or constructed facilities. The incremental fee calculation methodology will continue during the
8 term of this Contract absent the promulgation of a contrary Reclamation-wide rule, regulation, or
9 policy adopted after the Contractor has been afforded the opportunity to review and comment on
10 the proposed rule, regulation, or policy. If such rule, regulation, or policy is adopted it shall
11 supersede this provision.

12 (b) Water or water rights now owned or hereafter acquired by the Contractor,
13 other than from the United States, may be stored, conveyed, and/or diverted through Project
14 facilities, subject to the completion of appropriate environmental documentation, with the
15 approval of the Contracting Officer and the execution of any contract determined by the
16 Contracting Officer to be necessary, consistent with the following provisions:

17 (1) The Contractor may introduce non-Project water into Project
18 facilities and deliver said water to lands within the Contractor's Service Area, including
19 Ineligible Lands, subject to payment to the United States of an appropriate rate as
20 determined by the CVP Ratesetting Policy and the Reclamation Reform Act of 1982,
21 each as amended, modified, or superceded from time to time. In addition, if electrical
22 power is required to pump non-Project water through the facilities, the Contractor shall
23 be responsible for obtaining the necessary power and paying the necessary charges
24 therefor.

25 (2) Delivery of such non-Project water in and through Project facilities

1 shall only be allowed to the extent such deliveries do not: (i) interfere with other Project
2 purposes as determined by the Contracting Officer; (ii) reduce the quantity or quality of
3 water available to other Project water service contractors; (iii) interfere with the delivery
4 of contractual water entitlements to any other Project water service contractors; or (iv)
5 interfere with the physical maintenance of the Project facilities; Provided, that nothing in
6 this Article is intended to limit the United States' obligation to pass the Contractor's
7 Diversion Water through Project storage facilities to the extent required under the
8 applicable provisions of California law.

9 (3) The United States shall not be responsible for control, care, or
10 distribution of the non-Project water before it is introduced into or after it is delivered
11 from the Project facilities. The Contractor hereby releases and agrees to defend and
12 indemnify the United States and their respective officers, agents, and employees, from
13 any claim for damage to persons or property, direct or indirect, ~~arising out of or relating~~
14 ~~to~~ resulting from the Contractor's or its officers', employees', agents' or assigns', act of
15 (i) extracting or diverting non-Project water from any source, or (ii) diverting such non-
16 Project water into Project facilities.

17 (4) Diversion of such non-Project water into Project facilities shall be
18 consistent with all applicable laws, and if involving groundwater, consistent with any
19 applicable ground-water management plan for the area from which it was extracted.

20 (5) After Project purposes are met, as determined by the Contracting
21 Officer, the United States and the Contractor shall share priority to utilize the remaining
22 capacity of the facilities declared to be available by the Contracting Officer for
23 conveyance and transportation of non-Project water prior to any such remaining capacity
24 being made available to non-Project contractors.

25 OPINIONS AND DETERMINATIONS

1 18. (a) Where the terms of this Contract provide for actions to be based upon the
2 opinion or determination of either party to this Contract, said terms shall not be construed as
3 permitting such action to be predicated upon arbitrary, capricious, or unreasonable opinions or
4 determinations. Both parties, notwithstanding any other provisions of this Contract, expressly
5 reserve the right to seek relief from and appropriate adjustment for any such arbitrary, capricious,
6 or unreasonable opinion or determination. Each opinion or determination by either party shall be
7 provided in a timely manner. Nothing in subdivision (a) of Article 18 of this Contract is
8 intended to or shall affect or alter the standard of judicial review applicable under Federal law to
9 any opinion or determination implementing a specific provision of Federal law embodied in
10 statute or regulation.

11 (b) The Contracting Officer shall have the right to make determinations
12 necessary to administer this Contract that are consistent with the provisions of this Contract, the
13 laws of the United States and of the State of California, and the rules and regulations
14 promulgated by the Secretary of the Interior. Such determinations shall be made in consultation
15 with the Contractor to the extent reasonably practicable.

16 COORDINATION AND COOPERATION

17 19. (a) In order to further their mutual goals and objectives, the Contracting
18 Officer and the Contractor shall communicate, coordinate, and cooperate with each other, and
19 with other affected Project Contractors, in order to improve the operation and management of the
20 Project. The communication, coordination, and cooperation regarding operations and
21 management shall include, but not be limited to, any action which will or may materially affect
22 the quantity or quality of Project Water supply, the allocation of Project Water supply, and
23 Project financial matters including, but not limited to, budget issues. The communication,
24 coordination, and cooperation provided for hereunder shall extend to all provisions of this
25 Contract. Each party shall retain exclusive decision making authority for all actions, opinion,

1 and determinations to be made by the respective party.

2 (b) Within one hundred twenty (120) days following the effective date of this
3 Contract, the Contractor, other affected Project Contractors, and the Contracting Officer shall
4 arrange to meet with interested Project Contractors to develop a mutually agreeable, written
5 Project-wide process, which may be amended as necessary separate and apart from this Contract.
6 The goal of this process shall be to provide, to the extent practicable, the means of mutual
7 communication and interaction regarding significant decisions concerning Project operation and
8 management on a real-time basis.

9 (c) In light of the factors referred to in subdivision (b) of Article 3 of this
10 Contract, it is the intent of the Secretary to improve water supply reliability. To carry out this
11 intent:

12 (1) The Contracting Officer will, at the request of the Contractor,
13 assist in the development of integrated resource management plans for the Contractor.
14 Further, the Contracting Officer will, as appropriate, seek authorizations for
15 implementation of partnerships to improve water supply, water quality, and reliability.

16 (2) The Secretary will, as appropriate, pursue program and project
17 implementation and authorization in coordination with Project Contractors to improve the
18 water supply, water quality, and reliability of the Project for all Project purposes.

19 (3) The Secretary will coordinate with Project Contractors and the
20 State of California to seek improved water resource management.

21 (4) The Secretary will coordinate actions of agencies within the
22 Department of the Interior that may impact the availability of water for Project purposes.

23 (5) The Contracting Officer shall periodically, but not less than
24 annually, hold division level meetings to discuss Project operations, division level water
25 management activities, and other issues as appropriate.

(d) Without limiting the contractual obligations of the Contracting Officer under the other Articles of this Contract, , nothing in this Article shall be construed to limit or constrain the Contracting Officer's ability to communicate, coordinate, and cooperate with the Contractor or other interested stakeholders or to make decisions in a timely fashion as needed to protect health, safety, physical integrity of structures or facilities.

CHARGES FOR DELINQUENT PAYMENTS

20. (a) The Contractor shall be subject to interest, administrative and penalty charges on delinquent installments or payments. When a payment is not received by the due date, the Contractor shall pay an interest charge for each day the payment is delinquent beyond the due date. When a payment becomes sixty (60) days delinquent, the Contractor shall pay an administrative charge to cover additional costs of billing and processing the delinquent payment. When a payment is delinquent ninety (90) days or more, the Contractor shall pay an additional penalty charge of six (6%) percent per year for each day the payment is delinquent beyond the due date. Further, the Contractor shall pay any fees incurred for debt collection services associated with a delinquent payment.

(b) The interest charge rate shall be the greater of the rate prescribed quarterly in the Federal Register by the Department of the Treasury for application to overdue payments, or the interest rate of one-half of one (0.5%) percent per month prescribed by Section 6 of the Reclamation Project Act of 1939 (Public Law 76-260). The interest charge rate shall be determined as of the due date and remain fixed for the duration of the delinquent period.

(c) When a partial payment on a delinquent account is received, the amount received shall be applied, first to the penalty, second to the administrative charges, third to the accrued interest, and finally to the overdue payment.

EQUAL OPPORTUNITY

21. During the performance of this Contract, the Contractor agrees as follows:

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination, rates of payment or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment,

1 notices to be provided by the Contracting Officer setting forth the provisions of this
2 nondiscrimination clause.

3 (b) The Contractor will, in all solicitations or advertisements for employees
4 placed by or on behalf of the Contractor, state that all qualified applicants will receive
5 consideration for employment without discrimination because of race, color, religion, sex, or
6 national origin.

7 (c) The Contractor will send to each labor union or representative of workers
8 with which it has a collective bargaining agreement or other contract or understanding, a notice,
9 to be provided by the Contracting Officer, advising the said labor union or workers'
10 representative of the Contractor's commitments under Section 202 of Executive Order 11246 of
11 September 24, 1965, and shall post copies of the notice in conspicuous places available to
12 employees and applicants for employment.

13
14 (d) The Contractor will comply with all provisions of Executive Order
15 No. 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant orders
16 of the Secretary of Labor.

17 (e) The Contractor will furnish all information and reports required by said
18 amended Executive Order and by the rules, regulations, and orders of the Secretary of Labor, or
19 pursuant thereto, and will permit access to its books, records, and accounts by the Contracting
20 Officer and the Secretary of Labor for purposes of investigation to ascertain compliance with
21 such rules, regulations, and orders.

22 (f) In the event of the Contractor's noncompliance with the nondiscrimination
23 clauses of this Contract or with any of the said rules, regulations, or orders, this Contract may be
24 canceled, terminated, or suspended, in whole or in part, and the Contractor may be declared
25 ineligible for further Government contracts in accordance with procedures authorized in said
26 amended Executive Order, and such other sanctions may be imposed and remedies invoked as
27 provided in said Executive Order, or by rule, regulation, or order of the Secretary of Labor, or as
28 otherwise provided by law.

29 (g) The Contractor will include the provisions of paragraphs (a) through (g) in
30 every subcontract or purchase order unless exempted by the rules, regulations, or orders of the
31 Secretary of Labor issued pursuant to Section 204 of said amended Executive Order, so that such
32 provisions will be binding upon each subcontractor or vendor. The Contractor will take such
33 action with respect to any subcontract or purchase order as may be directed by the Secretary of
34 Labor as a means of enforcing such provisions, including sanctions for noncompliance:
35 Provided, however, That in the event the Contractor becomes involved in, or is threatened with,
36 litigation with a subcontractor or vendor as a result of such direction, the Contractor may request
37 the United States to enter into such litigation to protect the interests of the United States.

GENERAL OBLIGATION--BENEFITS CONDITIONED UPON PAYMENT

22. (a) The obligation of the Contractor to pay the United States as provided in this Contract is a general obligation of the Contractor notwithstanding the manner in which the obligation may be distributed among the Contractor's water users and notwithstanding the default of individual water users in their obligations to the Contractor.

(b) The payment of charges becoming due hereunder is a condition precedent to receiving benefits under this Contract. The United States shall not make water available to the Contractor through Project facilities during any period in which the Contractor may be in arrears in the advance payment of water rates due the United States. The Contractor shall not furnish water made available pursuant to this Contract for lands or parties which are in arrears in the advance payment of water rates levied or established by the Contractor.

(c) With respect to subdivision (b) of this Article, the Contractor shall have no obligation to require advance payment for water rates which it levies.

COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

23. (a) The Contractor shall comply with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d), Section 504 of the Rehabilitation Act of 1975 (P.L. 93-112, as amended), the Age Discrimination Act of 1975 (42 U.S.C. 6101, et seq.) and any other applicable civil rights laws, as well as with their respective implementing regulations and guidelines imposed by the U.S. Department of the Interior and/or Bureau of Reclamation.

(b) These statutes require that no person in the United States shall, on the grounds of race, color, national origin, handicap, or age, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving financial assistance from the Bureau of Reclamation. By executing this Contract, the Contractor agrees to immediately take any measures necessary to implement this obligation, including permitting officials of the United States to inspect premises, programs, and documents.

(c) The Contractor makes this agreement in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts, property discounts, or other Federal financial assistance extended after the date hereof to the Contractor by the Bureau of Reclamation, including installment payments after such date on account of arrangements for Federal financial assistance which were approved before such date. The Contractor recognizes and agrees that such Federal assistance will be extended in reliance on the representations and agreements made in this Article, and that the United States reserves the right to seek judicial

1 enforcement thereof.

2
3 PRIVACY ACT COMPLIANCE

4 24. (a) The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a)
5 (the Act) and the Department of the Interior rules and regulations under the Act (43 CFR 2.45 et
6 seq.) in maintaining Landholder acreage certification and reporting records, required to be
7 submitted to the Contractor for compliance with Sections 206 and 228 of the Reclamation
8 Reform Act of 1982 (96 Stat. 1266), and pursuant to 43 CFR 426.18.

9 (b) With respect to the application and administration of the criminal penalty
10 provisions of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's employees
11 responsible for maintaining the certification and reporting records referenced in (a) above are
12 considered to be employees of the Department of the Interior. See 5 U.S.C. 552a(m).

13 (c) The Contracting Officer or a designated representative shall provide the
14 Contractor with current copies of the Interior Department Privacy Act regulations and the Bureau
15 of Reclamation Federal Register Privacy Act System of Records Notice (Acreage Limitation--
16 Interior, Reclamation-31) which govern the maintenance, safeguarding, and disclosure of
17 information contained in the Landholder's certification and reporting records.

18 (d) The Contracting Officer shall designate a full-time employee of the
19 Bureau of Reclamation to be the System Manager who shall be responsible for making decisions
20 on denials pursuant to 43 CFR 2.61 and 2.64 amendment requests pursuant to 43 CFR 2.72. The
21 Contractor is authorized to grant requests by individuals for access to their own records.

22 (e) The Contractor shall forward promptly to the System Manager each
23 proposed denial of access under 43 CFR 2.64; and each request for amendment of records filed
24 under 43 CFR 2.71; notify the requester accordingly of such referral; and provide the System
25 Manager with information and records necessary to prepare an appropriate response to the
26 requester. These requirements do not apply to individuals seeking access to their own
27 certification and reporting forms filed with the Contractor pursuant to 43 CFR 426.18, unless the
28 requester elects to cite the Privacy Act as a basis for the request.

29 CONTRACTOR TO PAY CERTAIN MISCELLANEOUS COSTS

30 25. In addition to all other payments to be made by the Contractor pursuant to this
31 Contract, the Contractor shall pay to the United States, within sixty (60) days after receipt of a
32 bill and detailed statement submitted by the Contracting Officer to the Contractor for such
33 specific items of direct cost incurred by the United States for work requested by the Contractor

1 associated with this Contract plus indirect costs in accordance with applicable Bureau of
2 Reclamation policies and procedures. All such amounts referred to in this Article shall not
3 exceed the amount agreed to in writing in advance by the Contractor. This Article shall not
4 apply to costs for routine contract administration.

5 WATER CONSERVATION

6 26. (a) Prior to the delivery of water provided from or conveyed through
7 Federally constructed or Federally financed facilities pursuant to this Contract, the Contractor
8 shall be implementing an effective water conservation and efficiency program based on the
9 Contractor's water conservation plan that has been determined by the Contracting Officer to meet
10 the conservation and efficiency criteria for evaluating water conservation plans established
11 under Federal law. The water conservation and efficiency program shall contain definite water
12 conservation objectives, appropriate economically feasible water conservation measures, and
13 time schedules for meeting those objectives. Continued Project Water delivery pursuant to this
14 Contract shall be contingent upon the Contractor's continued implementation of such water
15 conservation program. In the event the Contractor's water conservation plan or any revised water
16 conservation plan completed pursuant to subdivision (d) of Article 26 of this Contract have not
17 yet been determined by the Contracting Officer to meet such criteria, due to circumstances which
18 the Contracting Officer determines are beyond the control of the Contractor, water deliveries
19 shall be made under this Contract so long as the Contractor diligently works with the Contracting
20 Officer to obtain such determination at the earliest practicable date, and thereafter the Contractor
21 immediately begins implementing its water conservation and efficiency program in accordance
22 with the time schedules therein.

23 (b) Should the amount of M&I Water delivered pursuant to subdivision (a) of
24 Article 3 of this Contract equal or exceed two thousand (2,000) acre-feet per Year, the
25 Contractor shall implement the Best Management Practices identified by the time frames issued

1 by the California Urban Water Conservation Council for such M&I Water unless any such
2 practice is determined by the Contracting Officer to be inappropriate for the Contractor.

3 (c) The Contractor shall submit to the Contracting Officer a report on the
4 status of its implementation of the water conservation plan on the reporting dates specified in the
5 then existing conservation and efficiency criteria established under Federal law.

6 (d) At five (5)-year intervals, the Contractor shall revise its water
7 conservation plan to reflect the then current conservation and efficiency criteria for evaluating
8 water conservation plans established under Federal law and submit such revised water
9 management plan to the Contracting Officer for review and evaluation. The Contracting Officer
10 will then determine if the water conservation plan meets Reclamation's then current conservation
11 and efficiency criteria for evaluating water conservation plans established under Federal law.

12 (e) If the Contractor is engaged in direct ground-water recharge, such activity
13 shall be described in the Contractor's water conservation plan.

14 EXISTING OR ACQUIRED WATER OR WATER RIGHTS

15 27. Except as specifically provided in Article 17 of this Contract, the provisions of
16 this Contract shall not be applicable to or affect non-Project water or water rights now owned or
17 hereafter acquired by the Contractor or any user of such water within the Contractor's Service
18 Area. Any such water shall not be considered Project Water under this Contract. In addition,
19 this Contract shall not be construed as limiting or curtailing any rights which the Contractor or
20 any water user within the Contractor's Service Area acquires or has available under any other
21 contract pursuant to Federal Reclamation law.

22 OPERATION AND MAINTENANCE BY NON FEDERAL ENTITY

23 28. Omitted.

24 CONTINGENT ON APPROPRIATION OR ALLOTMENT OF FUNDS

29. The expenditure or advance of any money or the performance of any obligation of the United States under this Contract shall be contingent upon appropriation or allotment of funds. Absence of appropriation or allotment of funds shall not relieve the Contractor from any obligations under this Contract. No liability shall accrue to the United States in case funds are not appropriated or allotted.

BOOKS, RECORDS, AND REPORTS

30. (a) The Contractor shall establish and maintain accounts and other books and records pertaining to administration of the terms and conditions of this Contract, including: the Contractor's financial transactions, water supply data, and Project land and right-of-way agreements; the water users' land-use (crop census), land ownership, land-leasing and water use data; and other matters that the Contracting Officer may require. Reports thereon shall be furnished to the Contracting Officer in such form and on such date or dates as the Contracting Officer may require. Subject to applicable Federal laws and regulations, each party to this Contract shall have the right during office hours to examine and make copies of the other party's books and records relating to matters covered by this Contract.

(b) Notwithstanding the provisions of subdivision (a) of this Article, no books, records, or other information shall be requested from the Contractor by the Contracting Officer unless such books, records, or information are reasonably related to the administration or performance of this Contract. Any such request shall allow the Contractor a reasonable period of time within which to provide the requested books, records, or information.

(c) Omitted.

ASSIGNMENT LIMITED--SUCCESSORS AND ASSIGNS OBLIGATED

31. (a) The provisions of this Contract shall apply to and bind the successors and assigns of the parties hereto, but no assignment or transfer of this Contract or any right or interest therein shall be valid until approved in writing by the Contracting Officer.

(b) The assignment of any right or interest in this Contract by either party shall not interfere with the rights or obligations of the other party to this Contract absent the written concurrence of said other party.

(c) The Contracting Officer shall not unreasonably condition or withhold his approval of any proposed assignment.

SEVERABILITY

32. In the event that a person or entity who is neither (i) a party to a Project contract, nor (ii) a person or entity that receives Project Water from a party to a Project contract, nor (iii)

1 an association or other form of organization whose primary function is to represent parties to
2 Project contracts, brings an action in a court of competent jurisdiction challenging the legality or
3 enforceability of a provision included in this Contract and said person, entity, association, or
4 organization obtains a final court decision holding that such provision is legally invalid or
5 unenforceable and the Contractor has not intervened in that lawsuit in support of the plaintiff(s),
6 the parties to this Contract shall use their best efforts to (i) within thirty (30) days of the date of
7 such final court decision identify by mutual agreement the provisions in this Contract which
8 must be revised, and (ii) within three (3) months thereafter promptly agree on the appropriate
9 revision(s). The time periods specified above may be extended by mutual agreement of the
10 parties. Pending the completion of the actions designated above, to the extent it can do so
11 without violating any applicable provisions of law, the United States shall continue to make the
12 quantities of Project Water specified in this Contract available to the Contractor pursuant to the
13 provisions of this Contract which were not found to be legally invalid or unenforceable in the
14 final court decision.

RESOLUTION OF DISPUTES

16 33. Should any dispute arise concerning any provisions of this Contract, or the
17 parties' rights and obligations thereunder, the parties shall meet and confer in an attempt to
18 resolve the dispute. Prior to the Contractor commencing any legal action, or the Contracting
19 Officer referring any matter to Department of Justice, the party shall provide to the other party
20 thirty (30) days' written notice of the intent to take such action; Provided, That such notice shall
21 not be required where a delay in commencing an action would prejudice the interests of the party
22 that intends to file suit. During the thirty (30)-day notice period, the Contractor and the
23 Contracting Officer shall meet and confer in an attempt to resolve the dispute. Except as
24 specifically provided, nothing herein is intended to waive or abridge any right or remedy that the
25 Contractor or the United States may have.

OFFICIALS NOT TO BENEFIT

34. No Member of or Delegate to Congress, Resident Commissioner, or official of the Contractor shall benefit from this Contract other than as a water user or landowner in the same manner as other water users or landowners.

CHANGES IN CONTRACTOR'S SERVICE AREA

35. (a) While this Contract is in effect, no change may be made in the Contractor's Service Area ~~or boundaries~~, by inclusion or exclusion of lands, dissolution, consolidation, merger, or otherwise, except upon the Contracting Officer's written consent.

(b) Within thirty (30) days of receipt of a request for such a change, the Contracting Officer will notify the Contractor of any additional information required by the Contracting Officer for processing said request, and both parties will meet to establish a mutually agreeable schedule for timely completion of the process. Such process will analyze whether the proposed change is likely to: (i) result in the use of Project Water contrary to the terms of this Contract; (ii) impair the ability of the Contractor to pay for Project Water furnished under this Contract or to pay for any Federally-constructed facilities for which the Contractor is responsible; and (iii) have an impact on any Project Water rights applications, permits, or licenses. In addition, the Contracting Officer shall comply with the National Environmental Policy Act and the Endangered Species Act. The Contractor will be responsible for all costs incurred by the Contracting Officer in this process, and such costs will be paid in accordance with Article 25 of this Contract.

FEDERAL LAWS

36. By entering into this Contract, the Contractor does not waive its rights to contest the validity or application in connection with the performance of the terms and conditions of this Contract of any Federal law or regulation; Provided, That the Contractor agrees to comply with the terms and conditions of this Contract unless and until relief from application of such Federal law or regulation to the implementing provision of the Contract is granted by a court of

1 competent jurisdiction.

2 NOTICES

3 37. Any notice, demand, or request authorized or required by this Contract shall be
4 deemed to have been given, on behalf of the Contractor, when mailed, postage prepaid, or
5 delivered to the Area Manager, Bureau of Reclamation, 7794 Folsom Dam Road, Folsom
6 California 95630-1777, and on behalf of the United States, when mailed, postage prepaid, or
7 delivered to the Board of Directors of the Placer County Water Agency, P.O. Box 6570, Auburn,
8 California 95604. The designation of the addressee or the address may be changed by notice
9 given in the same manner as provided in this Article for other notices.

10 CONFIRMATION OF CONTRACT

11 38. The Contractor, after the execution of this Contract, shall promptly seek to secure
12 a decree of a court of competent jurisdiction of the State of California, confirming the execution
13 of this Contract. The Contractor shall furnish the United States a certified copy of the final
14 decree, the validation proceedings, and all pertinent supporting records of the court approving
15 and confirming this Contract, and decreeing and adjudging it to be lawful, valid, and binding on
16 the Contractor.

IN WITNESS WHEREOF, the parties hereto have executed this Contract as of
the day and year first above written.
